Handled With			
Assessor Comments	A terrific line of EU ACCREITED Angus heifers bred from a herd with over 30 years of focused Angus genetics. The vendor places strong emphasis on high IMF and growth, consistently buying bulls with top end genetics to drive herd performance. These heifers are, quiet, and present a great opportunity to add high-performance bloodlines to your herd. Buyers note there was 1 yearling bull found in with the mob and was removed in early May. Heifers were preg tested on day of assessment 100 % tested non detectable Three heifers have old pink eye scaring in an eye but doesn't appear to be affecting their sight in any way. Three heifers have a little white on their udder. There are another 188 heifers in the same sale.
