Assessor Comments	A quality run of Vendor bred Angus steers for your competition. Predominantly Temania Angus bloodlines throughout with a splash of Knowla Angus also. Steers are averaging 1.65kg per day in a containment pen. This was due to the declining season at the start of 2026. The Gilgi herd are some of the quietest well bred cattle that I get to assess. Steers that will perform given the opportunity. Buy with confidence. Approx 5 steers show small blue dot scarring in 1 eye. Steers that have been bred right and fed right.
