Assessor Comments	Vendor bred Shorthorn females out of an excellent herd. These heifers were out of once was Gumble Shorthorns who bred and supplied a number of bulls. AI and stud sires are still used heavily within the commercial herd. Only 10 females have been retained out of the entire drop and these represent some excellent breeding opportunities in them. The heifers have been on cereal crop and would be a great proposition to join in the spring or take onto heavy grass fed kill weights as well.
