Assessor Comments Buyers, here is the lead of the Bidgel weaned EU Angus heifers with no heifers being retained that ave 200kg at 6 to 8 months old. These heifers present in store condition showing nice bone, length & femininity. Heifers have nice natural volume with room to grow out. Heifers have done very well with failing seasonal conditions, being bred out of medium to large frame Dalkeith Angus cows by top quality stud Bowen & Glen Avon stud sires. Heifer's worked very well through yards and are being handled and tailed out until delivery. Dalkeith cattle have a very good reputation for performance and temperament. These heifers are only getting sold due to failing seasonal conditions. Note 4 heifers have old blight scaring but not detrimental, odd heifer old lice scarring. They are getting sold in 2 lots of 107 hd run out the gate. 214 heifers were weighed to age 200kg curfewed.
