Assessor Comments	Buyers, here is the lead of the Bidgel weaned EU Angus- Angus cross heifers for 2026 averaging 219kg at 6 to 8 months old. These heifers present in store condition showing nice bone, length and are very feminine types. Heifers have nice natural thickness with volume and softness. Heifers have done very well with failing seasonal conditions, being bred out of medium to large frame Dalkeith Angus & Angus cross cows by top quality stud Bowen & Glen Avon stud sires. Heifers worked very well through yards and are being handled and tailed out until delivery. Dalkeith cattle have a very good reputation for performance and temperament. These heifers are only getting sold due to failing seasonal conditions. 9 red coloured heifers in draft. Note old lice scaring but clearing up
