Assessor Comments	Buyers, here is the lead of the Bidgel weaned EU Angus steers for 2026 averaging 214kg at 6 to 8 months old. These steers present in store condition showing nice bone and length. Steers have nice natural thickness with volume and breed type. Steers have done very well with failing seasonal conditions, being bred out of medium to large frame Dalkeith Angus cows by top quality stud Bowen & Glen Avon stud sires. Steers worked very well through yards and are being handled and tailed out until delivery. Dalkeith cattle have a very good reputation for performance and temperament. These steers are only getting sold due to failing seasonal conditions. Note 5 steers old blight scaring but not detrimental, odd steer old lice scaring. They are getting sold in 2 lots of 119 hd run out the gate. 238 steers were weighed to age 214 kg curfewed.
