	Quiet: 38 head	Quiet: 38 head	Temperament not assessed in Paddock
Handled With	cattle are well handled with dogs and horses. moved through the yards with ease and were settled assessment Dogs , Horses		
Assessor Comments	A very nice line of F1 wagyu /Angus mixed sex weaners. These weaners present in fresh forward condition and currently doing well. Sired by Door key wagyu bulls (see sire attachments to access ebvs) which were used with above average marbling values and F1 terminal value (\$). Mothers of these weaners were sourced from Parraway and carry Lawson & Te Mania Angus bloodlines. Give the right opportunity these weaners should grow into very nice feeders. These F1 weaners are true to type well grown and generally show sound confirmation. A percentage of the weaners in this lot have ring worm, which is not affecting them.		
Assessor	Scott Newberry (Level 1 Accredited) Phone: 0447 624 440
