Comment on Fat Score 1 Cattle

Heifers are in foward store store condition. No issues with transport are anticipated if normal transport procedures are followed.

Vendor Bred Yes

Stock History All heifers born on the property. The Shorthorn heifers are out of PTIC cows that were purchased in March 2025. They were by Bungulla and Dunbeacon Shorthorn bulls over Shorthorn cows with same bloodlines.

Lifetime Traceable 100% of cattle in this lot are Lifetime Traceable

Breeding Comments Towri Angus bulls over Angus, Angus x, and British bred cows. Towri Angus bulls have Booragul, Booroomooka and Deer Valley bloodlines.

Grazing Conditions

Confined and fed a nutritionist formulated grain based backgrounder mix from 09 June 2026 until delivery. Ration analysis avail on request.

	The heifers were very good to handle in the yards. Most were quiet through the race and crush with just four heifers moderately agitated in and exiting the crush. They were nice and calm moving from one yard to the next and were very settled.			
Handled With	Bikes , Dogs			
Assessor Comments	A good to mostly very good quality line of EU accredited yearling heifers. They were early weaned in several mobs between January and March this year. Following autumn rain and weight loss on green pastures the heifers were confined and fed a backgrounding mix from the 9th June until now. The ration has been designed and overseen by a commercial animal nutritionist. For the past 55 days they have had an ADG of around 1.5 kg per day but given they are on a backgrounder mix they are not over conditioned. The heifers are NSM and the vendor has good bull security on his properties. The heifers have had two shots of Bovilus MH + IBR and the bottle ID, Batch No and Exp date is available on request. With medium to large fram they suit to take directly onto feed for the domestic market or crop finish for the EU or other high quality slaughter markets. Drafted into domestic feeder weights of 323 - 429 kg.
