Assessor Comments	Angus heifers 19 - 20 months, not station mated, heifers were purchased ex Inverell district as weaners. Did observe 4 head with old pink eye scar (in one eye). Heifers are by Eaglehawk and Kingston bloodlines. Showing there winter coat, some with rubbing over rump. Heifers present in good store to forward condition and would suit either feedlot or are ready to join and retain as breeders. Note another lot same sale, that may help make up truck lot.
