Assessor Comments	Offering 55 Angus & Angus Cross Heifers. The heifers averaged 379kg live at assessment after an overnight curfew off feed but on water. The heifers weighed into a range from 304kg to 466kg and are all sired by Clunie Range Angus bulls. These heifers were a pleasure to handle through the yards and would suit someone looking for quiet cattle. They are nice two deck line of heifers that could be joined to the bull of your choice or over half of them are feeder weight ready to go into the feedlot. Please note a few heifers are showing some signs of rubbing on the eyes and neck.
