	Heifers worked well through yards with only a few becoming slightly agitated in the crush but settled quickly when rejoined the mob		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot		
Assessor Comments	Buyers a great opportunity to purchase a line of VGQ EU Vendor bred weaned heifers. All the hard work is done , fully weaned ,tailed out and educated in May and now presenting in store condition. Heifers are out of large framed Brangus and Ultrablack Cows sired by high priced Palgrove Ultrablack and Gidyea Ultrablack and Brangus bulls, they predominately show good bone, length of body and all the feminine characteristics to be an asset to most breeder herds, alternatively they could be taken through to the Lucrative EU feeder or slaughter market , suitable for all grassfed programmes with no antibiotics, grain or hgp. The Forrest cattle have a great reputation for performance on grass or grain and are highly sought after by repeat buyers when normally sold at heavier weights. Please note four heifers had small amount of white on udder or underbelly, several showing old ring worm scarring on head or neck and some showing signs of lice rub marks. Vendor has 3 decks black sisters this sale.
