Assessor Comments	A line of 16 good quality vendor bred charolais cross steers presenting in forward store condition that have an estimated average delivery weight of 224.5kg. Buyers a good opportunity to purchase a small line of steers that show plenty of shape and type and would be ideal to background for the feedlot market or to fatten as bullocks on grain as these steers have been taught to eat. Please note; Steers are still healing from recently being dehorned.
