Slightly Stirry: 1 head

Slightly Stirry: 2 head

Cattle flow well throughout home yards with ease. A percentage become agitated whilst being weighed but quickly settled once release back into a larger yard. Whilst photos and videos were taken with minor pressure applied a small percentage of steers brake away from mob but quickly settle once all pressure is taken away.

Handled With	Bikes
Notable Traits	Traits 1 Head 1 Cod still attached with ring 3 Head Small rubbing on neck and in-between back legs 1 Head Weeping eye
Assessor Comments	Buyers A Quality run of the Terrica Station Red Angus weaned Steers. These steers reflect years of strong genetics and consistent breeding evident in their type and quality. Cattle have a great nature and were a pleasure to work throughout home yards. Steers would be an asset to any grazer weather they will be grown out for the domestic market or onto future bullocks. The steers have had all the hard work done including Rhino guard, Bovi Shield, 5 in 1, drenched and are ready to hit the ground running. Steers have had access to quality oaten hay and XLR8 pellets and showing great daily weight gains.(Please note Vendor has multiple lots in the same sale.)
