Assessor Comments	A quality line of vendor-bred Angus heifers with good bone, sound structure and balanced confirmation. They are showing nice growth on improved pastures, supported by a supplementary grain ration, and have received their first BOVILIS MH + IBR vaccination. These heifers are packed with Angus genetics including Bald Blair, Texas, Eastern Plains and Raff, offering good potential as future breeders. They are the type that would normally be retained by the vendor and developed within the breeding herd, however, are being offered for sale due to the current drying conditions. A good opportunity to purchase a line of well-bred Angus females with the solid structure & excellent genetics.
