Assessor Comments	TOPS OF THE STEER DROP . A Good Quality Line of Vendor Bred Angus & Angus x Weaner Steers . Ave weight : 291.5 kg (270 - 358 kg) at assessment. Steers that have only been on grazing wheat crop for a short period of time . Steers are showing good Medium frame but lacking weight due to tight feed conditions in early winter. Cattle that will have good compensatory growth rates on quality feed. These Vendor Bred steers are normally grown out to Heavy feeder or Grassfed Msa Kill weights. They are good easy doing cattle that will suit all markets . Note: . 2 steers with old blueish eye in 1 eye (Not Detrimental & all Feedlot acceptable) Steers are still rough in the coats with some showing some rubbing.
