Grazing Conditions	Steers have been in containment feeding yards since weaning. Fed silage with barley grain being added in recently Returned same
--------------------	--

Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment			
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives			
Vendor Comments	Quality young cattle that have done well in containment as there hasn't been the feed in the paddock to keep them on the move forward. Heifer sisters and 2 lots of shorthorns in the same sale.			
	Muscle Score B 20% C 60% D 20%			
	Temperament	Yards Quiet: 39 head Slightly Stirry: 2 head Very good cattle to handle. Very respectful and easy to move. Very odd one got a bit agitated in the crush but soon calmed down after being let out. As they have been in containment feeding they are very quiet.	Crush Quiet: 37 head Slightly Stirry: 4 head	Paddock Quiet: 41 head
	Handled With	Bikes , On foot , Vehicles		
	Assessor Comments	On offer is 41 quality Angus steers. Steers are vendor bred, 11-12 months old and represent the complete drop. Steers have good bone and shape to be able to pack on the weight if given the opportunity. They have been in containment feeding since weaning due to seasonal conditions which has meant they have kept going forward without getting a setback. Ideal steers to take on and put on crop or feedlot to finish for the trade. One steer had wart looking growth on his neck that the vet had said will dry up and fall off in time. Please see pictures for more info. At assessment steers had a weight range on 290-431kg to avg 360.1kg. Quality steers you can buy with confidence. Vendor has heifer sisters and 2 lots of Shorthorns in the same sale.
