Assessor Comments	Annual turn off of surplus weaner heifers from the Tuxworth Pastoral Co. These heifers are always taken through to this time and the top 40% retained in herd. These heifers are true to type, bred out of Karoo and Yamba Angus bulls. These calves have been weaned since mid December due to the tight summer and are still showing some good weight for their age, With recent rain across the state and spring only just around the corner they are ready to explode and would expect a huge compensation in growth once it starts to warm up. You are buying calves that are bred to perform and have a good reputation out of the blue ribbon sales.
