	These steers have been regularly handled and moved through the yards quietly during the assessment.			
Handled With	Bikes , Vehicles			
Notable Traits	Traits 1 Head White on navel and underside of brisket			
Assessor Comments	On offer is a quality lot of 30 weaned Angus Steers. These steers are 11 - 12 months old and weighed an impressive 405kg avg full at assessment. These steers were very quiet to work with and have been performing well in a mild winter. Calves are up to date with all their animal health treatments including their first Bovilis MH+IBR shot. The 'Weowna' herd is KO, Aristocrat and Alloura Blood with a focus on high IMF and growth in bull selection. At this weight they are suitable for both feedlot induction or further backgrounding. Please note the vendor has a lot of heifers offered in the same sale
