Assessor Comments	On offer is a small but quality line of 21 Angus heifers. Since weaning in April these heifers have been performing well throughout the winter on pasture and are in forward condition. They will continue to put on weight as they grow and are easy to work with. These heifers are out of the mature cow herd with leading genetics from KO, Aristocrat and Alloura. Quality heifers with a fantastic temperament that will make ideal future breeders. Please note the vendor has a lot of steers offered in the same sale.
