Assessor Comments	Excellent quality line of females from the Glanville operation. Heifers are well grown soft easy doing types and would compliment any enterprise. Bred from a well managed operation, they represent the second line of females for the drop and were weighed 347-524kg at assessment. Heifers are even in type and have an excellent temperament. They present in slightly forward condition and currently performing well on crop. Heifers carry a clean bill of health and would make a lovely line of future breeders is desired. Alternatively heifers are grass fed eligible and would perform well in any market. Please call for further information.
