Handled With	Bikes																								
Assessor Comments	A good quality line of approximately 27 straight Angus with approx 10 Angus/Senepol X, and 3 Angus Hereford/Charalouis x weaner steers, 223 to 342 kgs to avg 258 kgs. An obvious tail including anything that was lacking muscle, growth or condition has been removed. A small % of steers were obviously marked late, (see video) but not detrimental to their grow going forward. Approximately 5 hd with old Buffalo fly scaring around eyes. These steers are easy to handle both in the yards and paddock. Some of the Senepol x steers were a bit stirry going over the scales. They are fresh in their winter coats and going ahead well in condition. (Agent happy to scan tags for buyer at no cost if required).
