Notable Traits	Traits 8 Head Lice rub 1 Head Soft scurr horns		
Assessor Comments	Buyers, an excellent opportunity to secure a line of very good quality, vendor bred, weaned Angus/Angus steers, sired by Bulliac Angus bulls. Since weaning these steers have continued on a forward growth trajectory and are now displaying a good width of topline and depth of hindquarter. Ideal steers to background for the Angus feeder market or to grow out to slaughter weights. They received a Moxidectin based pour-on drench and their 7in1 booster vaccine at weaning. They have been bunk trained, very well educated to the yards and were a pleasure to handle through assessment.
