Assessor Comments	Line of steers that are fresh and forward in condition. These steers have been fed a ration after being trucked out of a paddock that had run out of water. Steers are ideal to put back on feed or crop and are forward enough to power on if given the opportunity. A sample of steers were mouth and still had their milk teeth. Their exact age is unknown due to being purchased in as bits and pieces. Some Grey Charolais x steers are only moderate frame with lots of shape and are the heavier steers in the draft. Please refer to photos and video. 1 Black steer has sheath hanging out would've been purchased as a bull weaner and marked late. 2 steers slight cloudy eye. These steers have had Bovishield & Rhinoguard on induction. Ideal steers to give purchaser a quick return.
