| Assessor Comments             | A line of 22 Santa/Angus x heifers. Weight range 354 - 538 kg to average 455kg at assessment. These heifers were weaned in January where they received a vaccination & drench. Heifers are doing well on natural and improved pasture without any supplementary feeding. Sired by high quality Denngal Santa Gertrudis sires out of Angus cows, these heifers are high performance cattle with great genetics and would suit the breeder as well as the feeder. Buy with confidence, the hard work is done. |      |                 |                                     |
