Assessor Comments	Well bred line of weaned heifer. They represent the tops of a draft and are offered for genuine sale. Heifers were weighed 250kg+ at assessment with a lighter draft also on offer. Visual tail removed post assessment based on type and condition. Bred from larger framed cows, they present evenly and in fresh slightly forward of forward store condition. Heifers have performed very well after a slow start to the season and show plenty of softness and quality coupled with a very calm temperament. Please call for further information and view video to appreciate their quality.
