Notable Traits	Traits 3 Head Small eye blemish(not detrimental)(small)		
Assessor Comments	Well bred line of weaned heifer. They represent the 2nds of a draft and are offered for genuine sale. Heifers were weighed 188-250kg+ at assessment with a heavier draft also on offer. Visual tail removed post assessment based on type and condition. Bred from larger framed cows, they present evenly and in fresh forward store condition. Heifers have performed very well after a slow start to the season and show plenty of softness and quality coupled with a very calm temperament. Heifers are growing well and show good frame. Please call for further information and view video to appreciate their quality.
