Assessor Comments	A Top-quality line of Angus x Santa/Angus & Angus x Angus heifers. These heifers are not even 12 months old and weigh 362kg these cattle have performed very well given the tough start they got as calves out of the hunter valley. They are bred from Yugilbar & Knowla bloodlines. They show very good length and shape and hybrid vigour to go on to produce quality offspring or grow out to the kill. Vendor was in two minds to keep them and join them but has decided after much thought to let them go. " They would be nice cows " and i agree. **** Heifers have already had 1 dose of Bovillus MH plus IBR ****
