Assessor Comments	A genuine opportunity to secure a very good draft of EU Vendor Bred weaners off the well renowned and highly regarded Possum Point Station. For over 30 years now PP have continued to be at the forefront of breeding high quality Angus cattle and have carefully selected there Bulls with a strong focus on producing high performing cattle with growth & positive carcass attributes. Docility has been a big factor also on bull selection and you can see that in how quiet these weaners were to handle throughout the whole drafting and weighing process. These 11 month old Angus steers are the type that continue to attract repeat buyers year after year, with their ability to perform in a range of production systems and deliver high results. Originally built around Twynam Angus the PP program has continued to evolve with the introduction of Ardrossan and Injemira sires adding further performance and quality. These steers offer buyers the opportunity to invest in cattle bred for their doing ability and high performance.
