	Heifers are well handled and worked well through the race and weigh scales. Odd heifer was a little agitated on the scales but quickly settled once back in with the mob. All heifers are easy to walk through and photograph. Walked back to their paddock calming & quietly without breaking into a trot. Temperament of herd is a credit to the vendor.		
Assessor Comments	Second & final stage herd dispersal of the P & N Rogers Investments Cattle off Yarranalla, Holbrook. Lead drop of his Yearling Heifers, having offered up his PTIC Breeders in May this year. 78 Head of classed in, future breeders with none retained. Outstanding front paddock heifers that are well grown, large framed, structurally sound, roomy, future matrons that come from a high grade, heavily classed herd that has a solid reputation for quality progeny. Herd was originally bred from ex Stud Hazeldean Females purchased direct off the Litchfield family with a recent injection of Dunoon & Bowmont genetics. Vendor always shops at the top end of sale catalogues. Heifers have grown out well with a favourable Autumn/Winter season and present in fantastic condition ready to join to your sire of choice now. Heifers that will be an asset to any Angus Herd. Heifers are cycling now and show some slight rub marks on the odd shoulder and rear.
