Assessor Comments	Perry Family Farms are offering a tremendous lot of Angus steers that will excel in either a feedlot dominated space or a grass finishing program. Majority of these animals were purchased from the VLP Feature Weaner Sale in January 2026 A/C R & S Hamilton who conduct an extremely high standard of Angus breeding, utilizing Glendaloch Angus genetics. Phenotypically these Steers display a huge amount of muscle with a large capacity frame to develop into magnificent bullocks if given the chance. This consignment presents a fantastic opportunity to get a significant ADG through compensatory growth given the age & performance of these animals. With welcomed rainfall events around most of the State recently & knocking on the door of Spring we are looking to have a substantial feed wedge available, so buy with confidence.
