Assessor Comments	On offer is the complete annual draft of vendor bred Angus Heifers with none being retained in Herd. These heifers are Hazeldean and Bongongo blood, all weighed 240kg plus full at assessment and have been properly weaned since May and are running on improved and natural pastures with their grazing collars. A very good opportunity to secure a good line of one-mark future breeders. Presenting in store condition these heifers will respond to good feed. Please note: one heifer with white on belly & small % of old ringworm scarring deemed not detrimental to sale.
