Handled With	Heifers are extremely quiet and were a pleasure to handle during the yarding, drafting and weighing process Bikes , On foot , Vehicles
Assessor Comments	Offering a small, extremely quiet line of well bred Angus heifers. The vendors have handled the cattle regularly and use low stress stock handling practices resulting in a well mannered, user friendly line of heifers. Cattle are often yarded on foot or by being called, with the temperament displayed being a true result of a limited stress environment. With length, frame and exceptional temperament, this article would be ideal to target multiple avenues such as feeder, trade or export markets or add to a breeding program and join to a bull of your choice. With spring here, these heifers are a fantastic package and would be an asset to any operation.
