	Steers were put out in a large group in May and have not been handled since. Overall the whole group handled very well throughout assessment. Easy to draft a single animal out of mob in a laneway. Some did have more push in the race than others.

Notable Traits	Traits		
	7 Head Pinkeye scar in 1 eye only		
	2 Head White birthmark on groin		
Assessor Comments	A very even line of EU accredited Rennylea & Dunoon blood yearling steers. Aug/Sept 2025 drop. Steers show plenty of shape, growth and frame for age and have performed incredibly well through winter on an annual ryegrass pasture. Weighed into a tight 300-380kg (full) weight bracket, these 11–12-month steers have plenty of genetic potential and are marching forward. Ideally situated to capitalise on the bumper spring we're headed into. The Hanna Pastoral cattle regularly enjoy support from repeat buyers. EU, Grass Fed & Greenhams Never Ever Accredited.
