| Assessor Comments      | A small draft of Merridale And Raff Angus-influenced Angus spring drop steers from Ross Jarvis. A quality line of steers displaying excellent growth, length, bone and overall softness, with genuine performance and feeder appeal. These cattle have been bred to perform, carrying strong shape and natural thickness, out of large-framed Merridale blood cows and carefully selected bulls with positive EMA, 400-day and 600-day growth figures. The result is a consistent line of steers with strength, capacity and excellent weight-for-age potential. The vendor has selected this draft from their spring turnoff and prepared them exceptionally well for sale. Steers have been yard weaned for 7 days and educated onto hay, presenting quiet, settled and ready to continue forward into backgrounding or feeder programs. A genuine Upper Murray line of Angus steers with the breeding, temperament and performance genetics to suit both domestic and export market specifications. |            |                    |             |               |      |
