Assessor Comments	22 - Angus Heifers - Acc SHS Civil - Top quality line of angus heifer weaners presenting in strong store condition & all frame, well weaned and ready to stack on the weight. Tops of the drop heifers sired by Murdeduke sires out of Murdeduke & Te Mania blood cows selecting sires for above average 400 day growth, muscle & type. There is a long history of performance from this herd (formerly ST Hamilton) with both steers & heifers always having fed on well and these i expect will be no exception. These heifers offer a great two way proposition to take out to feeder weights or to grow on and present to the bull of your choice in what's shaping as a cracking season. Heifers are ready to bounce away with the spring around the corner. *note some rub on calves as per photos.
