Assessor Comments	19 Angus Steers - Acc SHS Civil - Nice quality line of angus steer weaners presenting in strong store condition & all frame, well weaned and ready to stack on the weight. Murdeduke sired steers out of Murdeduke & Te Mania blood cows selecting sires for above average 400 day growth, muscle & type. There is a long history of performance from this herd (formerly ST Hamilton) with both steers & heifers always having fed on well and these i expect will be no exception. Steers will be ideal to take out to Feeder weights or grow on to bullocks in what's shaping as a cracking season. Steers are ready to bounce away with the spring around the corner. *note some rub on calves as per photos.
