Heifers handled really well, nothing showed aggression. Some heifers had slight rush through gate and in race, quickly calming once stress was removed, would think only typical of age.

Assessor Comments

Buyers 11 Angus heifers 8-11 months old averaging 263.8kg full weight at assessment. These heifers should not disappoint and should go ahead onto feed or breed, if given the opportunity. The heifers dams were purchased of AuctionsPlus as Angus and are by Waitara and Inglebrae Angus sires. 2 heifers observed with rub marks on rump or neck, might just be rubbing dead hair or possible lice. Vendor has steers in today's sale.
