Handled With	Steers handled really well, nothing showed aggression. Some steers had slight rush through gate and in race, quickly calming once stress was removed, would think only typical of age. Cattle (steers & heifers) were very inquisitive when looked at in paddock, coming up to buggy Bikes , On foot , Vehicles
Assessor Comments	Buyers 11 Angus steers 8-11 months old averaging 279.9kg full weight at assessment. About 5 steers observed with rub marks, not sure if just rubbing dead hair or maybe slight lice rub. These steers should not disappoint and should go ahead onto feed, if given the opportunity. The steers dams were purchased of AuctionsPlus as Angus and are by Waitara and Inglebrae Angus sires. Vendor has heifers in todays sale.
