| Assessor Comments                     | Quality line of steer weaners being offered account the breeder, all good beef types. Weaners have only been running on Oats since weaning, are just starting to do, can only go ahead as Spring matures. One steer with slight St Johns Wart effects on face, some light ring worm. Vendor has two other lots of weaners in same sale.                                                        |                                          |                                        |
