Notable Traits	Traits 1 Head Ringworm on neck	
Assessor Comments	A very good line of Angus Steers, representing the complete annual draft of the Lemon Grove steers with a 10% tail taken out. All steers were weighed out over 280Kg. These steers were yard weaned on 7/3/26 and handled regularly which accounts for their very quiet temperament. The steers are beginning to loose their winter coats and are bounding away as the winter herbage hit their peak. The Lemon Grove Steers are always keenly sought by the major feedlots when given the opportunity. Noticed 6head with a small amount of white underneath, and one with a small ringworm on the neck. # Please note latest delivery time is Wednesday Morning 9/9/26#
