| Assessor Comments      | 50 Angus and Angus cross steers, 15–23 months, offering plenty of frame and capacity to add weight. Cattle are presenting in store condition due to the current conditions in the Bega valley. These are steers that the vendor would normally retain and take through to heavy kill weights. An excellent opportunity to secure cattle with the frame, type and breeding to grow on and finish into heavy steers. 36 head Greenhams NE accredited |                                           |                                     |
