Assessor Comments	Offering a b-double load of Angus and Angus cross steers weighing 176-289kg at assessment. These steers are acclimatised with all treatments up to date and are stacking the weight on. They are grazing cereal crops that have quality food on offer due to the soft start to winter. They have been bunk trained in containment at purchasing and are pleasant to work. They were purchased in to graze winter crops and are being sold to make room for lighter weaners in preparation to lock crops up. They have had 2 x 5 in 1 and 2 x MH+IBR as well as a recent drench and are recording positive daily weight gains with fat cover starting to increase. Ideal to background for the strong feeder or kill markets with all of the preparation and expense behind them. Quality Angus steers that are settled in their group and will remain as one until delivery. Vendor is offering heifers in todays sale also.
