Steers were a pleasure to process through the yards at time of assessment. The steers described as slightly stirry only became a little agitated in the race and head bail. The temperament of the cattle are a credit to the Vendor's stock handling and bull/replacement female selection.

Handled With	Bikes , On foot
Assessor Comments	These steers are a credit to the vendors and show good length and depth. These steers are being sold lighter than the vendors would normally sell because of the seasonal conditions. The Bloomfield cattle have a reputation for displaying good weight for age characteristics and are perfect to grow out to a heavy feeder or bullock. Please note vendor has another 74 steers and 109 heifers in the same sale. Both lots of steers were photographed in the same yard. All bang tailed steers are from the lot of lighter steers being sold in the same sale.
