	Heifers were a pleasure to process through the yards at time of assessment. The heifers described as slightly stirry only became a little agitated in the race and head bail. The temperament of the cattle are a credit to the Vendor's stock handling and bull/replacement female selection.			
Handled With	Bikes , On foot			
Notable Traits	Traits 1 Head Swollen Navel			
Assessor Comments	These heifers are a credit to the vendors and show good length and depth. These heifers are being sold lighter than the vendors would normally sell because of the seasonal conditions. The Bloomfield cattle have a reputation for displaying good weight for age characteristics and are perfect to grow out to a feeder or kill heifer. Please note vendor has two lots of steers (91 and 74) in the same sale. These heifers were all scanned empty at assessment. There is one heifer with a navel in the mob, not considered detrimental.
