Temperament

Yards	Crush	Paddock
Quiet: 133 head Slightly Stirry: 5 head	Quiet: 133 head Slightly Stirry: 5 head	Temperament not assessed in Paddock

These heifers are very well handled and are a credit to the vendor. They flowed through the yards well. The heifers marked as slightly stirry only became agitated when pressure was applied and quickly settled once pressure was released.

Handled With	Bikes , Dogs , Horses , Vehicles
Assessor Comments	Buyers, here is a light 5 deck line of very good quality flatback trade heifers. These heifers come from a herd with a very good reputation for quality cattle that perform very well on both grass and grain. They have a live weight range of 320kg to 398kg with an average of 359.9kg at assessment. These heifers show strong frame, adequate bone and are ready to power ahead once given the opportunity on good feed. 100% of this mob were mouthed and are mainly milk tooth, with only a small percentage of 2 tooth heifers. They are age branded number 5 heifers. This lot would be ideally suited to enter the trade feed pen however, would also perform well on grass or crop and would finish well into the grassfed slaughter market. Please note these heifers are located in a cattle tick infested area, they have been pretreated with dectomax injectable to assist with the clearing for potential tick free purchasers. It will be the purchasers responsibility to ensure all cattle tick regulations are followed. Please note the same vendor has two other lots in this sale.
