Assessor Comments	Buyers an opportunity knocks for someone wanting to purchase light weight 10-12 months of age Angus cross heifers. These heifers present in store condition and will make ideal future breeders or take through to the feeder markets as there is plenty of compensatory gain to be had. Heifers were very good to handle in yards and crush. They were purchased out of the St George district at the end of may and have to move on due to the ongoing dry conditions. Buyers note cattle do have signs of lice and quite a number with ringworm on different parts of their body. A good line of Angus cross heifers that will power ahead on a rising plain of nutrition if given the opportunity. Av weight 233.4 kg after a 16 hour curfew.
