Assessor Comments

126 GQ Vendor Bred Angus Steers. Majority Exhibit Medium to Large Bone, Length, Depth and Frame for their age. They have Good Feet, Tidy Heads & are Quiet. Ideal Steers to grow out to Heavy Feeder Specs for the lucrative Angus job. They were 100% weighed & assessed after 4 hours off feed & 1 hour off water. They are Mid July 2025 to late October 2025 drop so would be confident they are all Milk Teeth. They have been on agistment at "Knapdale" since early April & originated from Vendor's properties "Tiabundie" & "Rotherwood" in the Bingara/Barraba regions of NSW. Take notice of the compensatory weight gain available in these Steers. Vendor has another 2 mobs in the same sale of Crossbred Steers & Crossbred Heifers. Please factor above traits into your bidding. Knapdale is Prickly Acacia Free (disregard seedless trees in photo background).
