Assessor Comments	Offering 146 Angus and Brangus cross heifers. These heifers averaged 304kg live at assessment and were quiet to handle in the yards. The heifers were purchased as weaners in April 2026 from the Tambo area and are a nice line of heifers that were all vet preg tested empty at assessment. Overall, these heifers are a good mob of mainly sleek coated heifers to either put away as future breeders or take onto feeders in the new year.
