A credit to the vendors for the temperament of these steers. Even when steers were in a confined space of the crush they showed very little fuss. Very quiet cattle to handle in the yards.

Handled With Bikes , Dogs , Low Stress Stock Handling© practices (CERTIFICATE DATE 7/2015)

Assessor Comments On offer is a very good quality line of 70 EU vendor bred Droughtmaster steers 9 to 12 months of age with exceptional temperament. Steers have been bred in Western Queensland and will perform on a rising plain of nutrition. Steers stand on good bone and have plenty of stretch with compensatory gain to be had to maximize the purchasers profits. Steers are very tidy around the head. Previous purchasers have commented on the quality and the temperament of the "Cooladdi Park" steers as they will not disappoint any purchaser, they have a reputation to perform. Steers were weaned in July and have had a full weaning program comprising yard fed on hay and weaner ration, turned out into paddock and mustered back to yards each afternoon and worked through yards applying low stress stock handling. Two steers with white markings on face see photos). Weight range of 294 to 392kg to average 322.3 kg curfewed.
