Assessor Comments	Buyers, here is a very good quality three deck line of EU accredited steers. These steers would usually be kept and taken through to heavy EU feeder or slaughter markets however, due to dry seasonal conditions the opportunity to purchase has come. These steers come from a herd with a strong reputation for growth and performance on grass and grain. They have a live weight range of 244kg to 436kg and averaged 314.4kg at assessment. They show strong frame and stand on adequate bone. They show great weight for age and are ready to power ahead once given the opportunity on good feed. These steers are ideally suited to background into the heavy EU feeder or EU slaughter markets. This lot have been pretreated with 1 x injectable and 2 x Amatick plunge dips 4 days apart to assist with potential buyers in the tick free zone. It will be the purchasers responsibility to ensure all cattle tick regulations are followed.
